Career Objective:

Motivated Fresher Software Engineer skilled in Python, SQL, Power BI and Java with project experience in IoT health monitoring, data visualization, and automation. Seeking roles as a Software Engineer, Software Tester, Data Analyst, or Data Engineer to apply technical and problem-solving skills to innovative solutions.

Education:

- **Bachelor of Engineering – Electronics & Computer Engineering**
PES's Modern College of Engineering, Pune | CGPA: 8.6 | *June 2025*
- **Diploma in Mechanical Engineering**
Walchand College of Engineering, Sangli | Percentage: 86.05% | *June 2022*

Projects:

- **VitaLink – IoT Based Health Monitoring System** | *Python, JavaScript, ESP32, ECG & EMG Sensors*
 - Designed and implemented an IoT health monitoring device to detect atrial fibrillation and muscle abnormalities in real time.
 - Integrated AD8232 ECG and EMG sensors with ESP32 microcontroller for bio-signal acquisition.
 - Developed backend on server for real-time storage and retrieval of biosensor data, ensuring seamless monitoring and alert generation.
- **Gaze-Controlled Wheelchair** | *Python, ESP32, Web Cam, Motor Driver*
 - Developed a gaze-driven wheelchair leveraging the Python OpenCV library for real-time eye-tracking.
 - Applied algorithms to detect eye positions (left, right, half-closed) using webcam input to control wheelchair movement.
 - Optimized detection speed, achieving 10-50 milliseconds per frame for accurate and responsive eye tracking.
- **Bank Management System** | *Python, MySQL*
 - Built a basic system to manage banking operations such as transactions, account handling, and data storage.

Technical Skills:

- **Programming:** Python, Java, SQL, HTML, CSS
- **Version Control :** Git , GitHub
- **Data & Analytics Tools:** Power BI, Microsoft Excel, SQL
- **IoT & Development Tools:** ESP32, VS Code
- **Operating Systems:** Windows
- **Testing Tools & Automation:** Selenium WebDriver(Basic), TestNG, Manual Testing
- **Soft Skills:** Problem-Solving, Teamwork, Quick Learning, Creativity

Certifications:

- **Data Analytics** – Iraedu.tech
- **Data Visualization** – Tata Forage

Coursework:

- Data Structures & Algorithms (DSA)
- Database Management Systems (DBMS)
- Object-Oriented Programming (OOPs)

Extracurricular:

Design Team Member – E-CESA (Electronics & Computer Engineering Student Association)

- Created engaging social media posters and event designs using design tools.
- Collaborated with cross-functional teams to execute successful student campaigns.
